

## CUTTERS

## Asphalt Tile Cutter

Portable, hand-operated shears cut resilient floor tile up to 3/16". Cuts 9 x 9" tile squarely or diagonally and cuts 12 x 12" tile squarely. Comes with a replaceable cutting blade made of hardened tool steel and a comfortable handgrip on the actuating lever. Current design has a maximum weight of 45 lb. Includes a built-in carrying handle and angle gauges.

## Bolt Cutter (Angle Cut)

Cutter for bolts, rivets and steel rods gives an angular cut. Has an adjustable, rigid, two-jaw head. Hardened steel removable jaws are angled at 25 to 35 deg. Flush-cutting surface allows flat shearing of bolts in close areas. Dual lever-arm steel handles have toggle or geared action. Adjustments compensate for jaw wear. Rubber bumper or lock-screw stops eliminate pinching of operator's hands. GGG-C-740.

5110-00-224-7056	3/8" capacity, 24" length	EA	\$64.94
5110-00-224-7055	1/4" capacity, 14" length	EA	\$54.84
5110-00-224-7057	9/16" capacity, 36" length	EA	\$100.69

## Bolt Cutter (Center Cut)

Cutter for bolts, rivets and steel rods gives a center cut. Has an adjustable, rigid, two-jaw head. Removable jaws have rounded cutting edges and are made of hardened tool steel. Shearing occurs above the surface of the head. Dual lever-arm steel handles have toggle or geared action. Adjustments compensate for jaw wear. Rubber bumper or lock-screw stops eliminate pinching of operator's hands. GGG-C-740.

5110-00-224-7064

3/8" capacity, 30" length

EA \$56.23

## Bolt Cutter (Clipper Cut)

Designed for close cutting near flat surfaces. Clipper-cutter tool cuts rivets, bolts and steel rods and has an adjustable, rigid, two-jaw head. Removable, sharp-edged jaws are made of hardened tool steel. Dual lever-arm steel handles have toggle or geared action. Adjustments compensate for jaw wear. Rubber bumper or lock-screw stops eliminate pinching of operator's hands. GGG-C-740.

EA \$43.37

## Cable Cutter (Groping Hook Guide)

Compound-lever-type cable cutter has rigid heads and center-cut style. Remove jaws to sharpen or replace. Adjustment compensates for wear. Rubber stops prevent pinching. Insulated handles protect operator from high voltages (up to 5000v). Groping hook guide consists of a double hook extending 1-7/8" beyond the cutting head. Cutting capacity is 3/8", overall length is 20-1/2". MIL-C-3958.

5110-00-541-6730

EA \$66.72

## Cable Cutter (Hydraulic Action)

Hydraulic-action cutter is operated by a hand-pumped hydraulic unit with a relief valve, providing a 16-ton thrust. Performs horizontal cutting. Includes a hardened tool steel cutting blade, rope holder and blade guides. Cutter has a 1-1/8" capacity, measures 15" long and weighs 32 lb. GGG-C-800.

5110-00-224-7058

EA \$649.07

**Having trouble reading an item entry? See page 6.**

**Cable Cutter (Compound Lever)**

Cutter has a compound lever and is center-cut type. Includes an extra pair of cutting jaws and has a 7/8" capacity. Cooper Tools P/N 059 MLX.

5110-00-221-1047

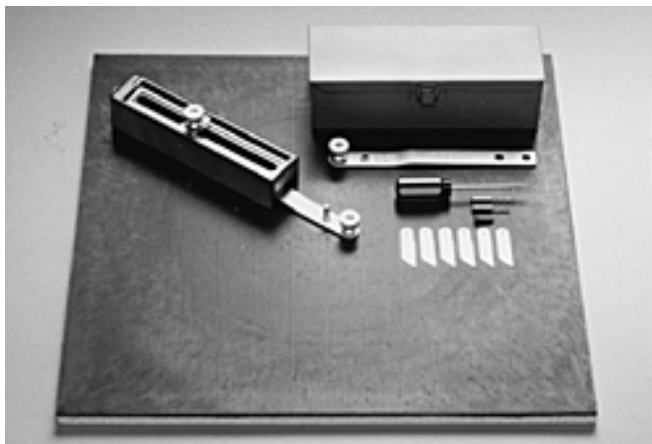

EA \$233.54

**Cable Cutter (Hydraulic)**

Cuts copper and aluminum power and communications cable, soft strip or bar. Hydraulic cutter consists of cutter head, ram assembly, coupling, handle, hose and pump on mounting board. Cutting capacity is 3". HK Porter P/N 179089, Ensley P/N E-205-3 or equal.

5110-00-595-8267

EA \$971.39

**Circle Cutter**

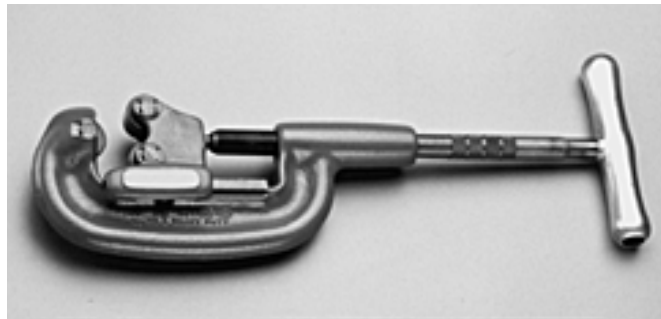

Adjustable cutter with hardened tool steel blades cuts washers and gaskets from sheet asbestos, rubber, leather, canvas, cork, felt and similar materials. Comes with a metal case. GGG-C-748.

Movable pivoting block style consists of a plastic block with 1/32" graduations, pivot post with nut and washers, cutter blades, pivot pins and cutting board with centering ferrule. Also includes a single cutter blade holder and six blades.

*Cutter with extensions cuts circles 1 to 13" in diameter. Two 12" extensions cut circles up to 36" in diameter. Cuts materials from 0.001 to 3/4" thick. Includes extension arms, four pivot pins and other accessories. Square cutting board measures 18".*

5110-00-288-9300

EA \$168.78

**Pipe Cutter (Wheel-Type)**

Hand-operated wheel-type cutter cuts steel and wrought iron pipes. The nondeforming steel frame provides proper alignment of pipe and cutter wheel. T-handled threaded feed screw adjusts sliding feed member along track. With one cutter wheel and two rollers that turn freely on axle pins. Hardened alloy steel. GGG-C-771.

5110-00-293-0460

**Steel Strap Cutter (Heavy Duty)**

Hand-operated heavy-duty steel cutter has forward cutting action. Comfortable grips and handle stops prevent pinching of operator's hand. Has two hardened steel cutting jaws with tapered ends. Flattened bottom jaw slides under strapping. Cuts strapping up to 2" wide and 0.050" thick. Corrosion-inhibiting finish. Weighs 8 lb. GGG-C-835.

5110-00-223-6281

EA \$71.75

**Steel Strapping Cutter (Safety Style)**

Safety-type cutter has forward cutting action. Hand operated. Has double side-retaining devices: after steel strapping is cut, both ends are retained until handles are released. Flattened bottom jaw. Cuts strapping up to and including 1-1/4". GGG-C-835.

5110-00-771-3732

EA \$70.13

**Wire Cutter**

Center-cut is for cutting electrically charged barbed wire. Insulated handles withstand high voltages (up to 5000v). Has a compound lever. Capacity is 0.116", overall length is 6". A-A-52207.

5110-00-595-8229

EA \$32.09

**SCISSORS****Electricians Scissors (Drop Forged Steel)**

Ideal for cutting small-gage wire, insulation and light sheet metal. Heavy-duty electrician's scissors have straight, ring-shaped handles and sharp, pointed blades. Back edge of blade has a scraper and file. Blades are polished nickel-chrome plated. Scissors have a 1-3/4" length of cut and measure 5" long. GGG-S-278.

5110-00-255-0420

EA \$4.88

**Ergonomic Scissors**

OLO brand rolling scissors operate by rolling instead of squeezing. This comfort cut eliminates hand cramps and fatigue, and also makes cutting painless for people with arthritis or carpal tunnel syndrome. The nonpoint blades provide safety, precision, flexibility and durability.

5110-01-385-7393

EA \$10.30

**Pocket Scissors (Drop Forged Steel)**

Heavy-duty scissors have the points of both blades rounded for extra protection, and can be safely carried in a pocket. Scissors have ring-shaped handles and straight blades. Blades are polished nickel-chrome plated and handles are plated or painted. Scissors have a 1-1/2" length of cut and measure 4" long. GGG-S-278.

5110-00-290-3766

EA \$6.29

**Pocket Scissors (Stamped Stainless Steel)**

Safely carry these lightweight scissors in your pocket. Scissors have ring-shaped handles, straight blades and rounded blade points for extra protection. Rust-resistant stamped stainless steel. Scissors have a 1-7/8" length of cut and measure 5-1/4" long.

5110-01-241-4376

EA \$2.61

**Sewing Scissors (Drop Forged Steel)**

Designed for cutting, trimming and clipping tasks. Heavy-duty sewing scissors have ring-shaped handles and straight blades. One blade is pointed and the other is blunt. Blades are polished nickel-chrome plated and handles are plated or painted. Scissors have a 2-5/8" length of cut and measure 6" long. GGG-S-278.

5110-00-754-1499

EA \$6.17

**Sewing Scissors (Stamped Stainless Steel)**

Lightweight sewing scissors cut, trim and clip. Scissors have ring-shaped handles and straight blades. Molded plastic handles are for left- and right-hand use. Both blades are pointed or one blade is pointed and the other blade is beveled. Rust-resistant stamped stainless steel. Scissors have a 3" length of cut and measure 6-1/2" long.

5110-01-241-4375

EA \$3.21

**SHEARS****Bent Trimmers Shears (Drop Forged Steel)**

Heavy-duty shears are used in a wide variety of applications such as cutting fine to heavy fabrics, cording, plastics, rubber, leather, vinyl and tape. Small sizes are best for short cuts and trimming. Large sizes are best for heavier applications such as upholstery, or on production lines where longer cuts and greater strength are needed. Shears have bent handles for easy, maneuverable, accurate cutting. Blades are polished and nickel-chrome plated. Handles are painted or nickel-chrome plated. One blade is pointed and has a thumb ring, the other is beveled or blunted. GGG-S-278.

**Paper or Stationer's Shears (Drop Forged Steel)**

Ideal for blueprint or drafting work. Heavy-duty paper or stationer's shears have long, narrow blades and straight handles. Polished and nickel-chrome plated blades. Painted or nickel-chrome plated handles. Both blades are drop forged steel and pointed. GGG-S-278.

5110-00-162-2207 6-3/4" cut length, 12" overall length EA \$12.35

**Pinking Shears (Drop Forged Steel)**

Heavy-duty pinking shears have precision-matched teeth that provide a decorative, ravel-resistant zigzag edge. Shears have a bent handle style, with one handle ring shaped and the other loop shaped. Both blade points are blunted. Blades are polished and nickel-chrome plated. Handles are painted or nickel-chrome plated. GGG-S-278.

5110-00-162-2202 3-1/2" cut length, 9" overall length EA \$24.84

**Straight Trimmer's Shears (Drop Forged Steel)**

Versatile tool. Heavy-duty shears cut fine to heavy fabrics, cording, plastics, rubber, leather, vinyl and tape. Small sizes are best for short cuts and trimming. Large sizes are best for heavier applications such as upholstery, or on production lines where longer cuts and greater strength are needed. Shears have straight handles and polished nickel-chrome plated blades. Painted or nickel-chrome plated handles. One blade is pointed and has a thumb ring, the other is beveled. GGG-S-278.
